RE: Gunpowder SPS to White Marsh SPS System  
Improvements – Contract 2  
Stormwater Management Variance  
Bird River Watershed  
**Project I.D. M200026**  
**Tracking Number: 05-24-4238 06-24-4239**

Dear James Kiladis;

This office has reviewed the information submitted and finds that a stormwater management variance can be granted for this project under Section 33-4-113 (a) (2) of Title 4 of the Baltimore County Code. Section 33-4-113 (a) (2) allows a stormwater management variance to be granted if there are exceptional circumstances such that strict adherence to the provisions of the design standards would result in unreasonable hardship or practical difficulty and not fulfill the intent of the regulations.

This project is for constructing 2,860 feet of 42-inch, 440 feet of 48-inch & 4,370 feet of 54-inch diameter interceptor; tunnel beneath White Marsh Boulevard, Mercantile Road, and Honeygo Boulevard; cast-in-place existing 48-inch and 54-inch diameter interceptor; 100 feet of relocate 10-inch diameter sewer and redirect private sewer to connect to 54-inch diameter relief interceptor by cut and cover. The existing cover conditions will be re-established once the improvement systems are installed. Although the disturbed area is in excess of 5,000 square feet, there will be no increase in impervious area or runoff resulting from the project.

Please contact Abiy Geleta, P.E. at 410-887-3768 should you have any questions.

Very truly yours,

*/signed/*

Kritty Udhin, P.E., Manager  
Stormwater Management
